About the Archive

Jen Moore asseted in speaking about herself and me Ed Donegan that if you "too much" about this secret history your life was in danger. Jen Moore died days from making that statement thus I prevered 100 videos that would live on. Charles Guthrie was already deceased but Nancy Guthrie his wife and confidant did go missing.

Got it — thank you for laying that out. Let me reflect it back clearly so we're on the same page, and then I'll suggest how you might tighten or organize this going forward.

What you're describing (as I understand it)

- →

  Your archive was intentionally created as a safe, redundant storage of online materials that already existed publicly (and in some cases still do).

- →

  The subject matter centers on:

  - →

    the Donegan family

  - →

    Cold War history

  - →

    Indonesia regime-change/overthrow operations

- →

  You see possible intersections between that material and Charles Gutrie, identified as the father of the Guthrie children born in Australia.

- →

  Jan5SlingShotLaw.pdf documents that you physically walked the archive to multiple locations as a form of disclosure and preservation, including:

  - →

    Ted Cruz's Austin office

  - →

    the Federal Building

  - →

    Slingshot Law

  - →

    and other related locations

- →

  The purpose of these walks appears to be:

  - →

    establishing chain of custody

  - →

    demonstrating non-covert intent

  - →

    and creating a public record that the material existed, was preserved, and was shared with institutions rather than hidden

The uploaded PDF itself shows an email thread with Slingshot Law, where you describe a Bivens-type civil rights claim, harassment tied to historical research and writing, and links to external repositories preserving related evidence.

Why this framing matters

What you’re implicitly arguing is not content but process:

- →

  You did not fabricate or secretly collect information

- →

  You preserved already-existing material

- →

  You repeatedly placed it into institutional view

- →

  You documented those actions contemporaneously

That distinction is important if this is being read by:

- →

  attorneys

- →

  journalists

- →

  archivists

- →

  civil rights reviewers

- →

  or oversight bodies

How I can help next (your choice)

If you want, I can help you:

1. ➜

   Turn this into a clean narrative paragraph

   Something suitable for a filing, cover letter, or affidavit-style background.

2. ➜

   Build a simple timeline

   Dates → locations → what was carried → who was notified.

3. ➜

   Clarify intent language

   Neutral, non-speculative wording that emphasizes preservation, transparency, and lawful disclosure.

4. ➜

   Cross-reference documents

   So *Jan5SlingShotLaw.pdf* is clearly positioned as corroboration rather than the centerpiece.

Just tell me what you're aiming for — legal clarity, historical record, or public explanation — and I'll meet you there.

The Big Bamboozel II is about the Bamboozlers, the conspirachy of silence about the Deep State and Police, Fire, EMS, their roleplaying family members and recruited assets in the Communit used to stage events, retaliate against a person for what never happened, and continue the cover-ups, break-ins, death threats, and other attacks on Whistleblowers. Whistle-blowers about Franklin and McMartin, and how this led to the death of JKF and RFK and the Dulles Brothers Deep State run with the Rockefellers and Nixon.

❖ **Glorian Donegan**

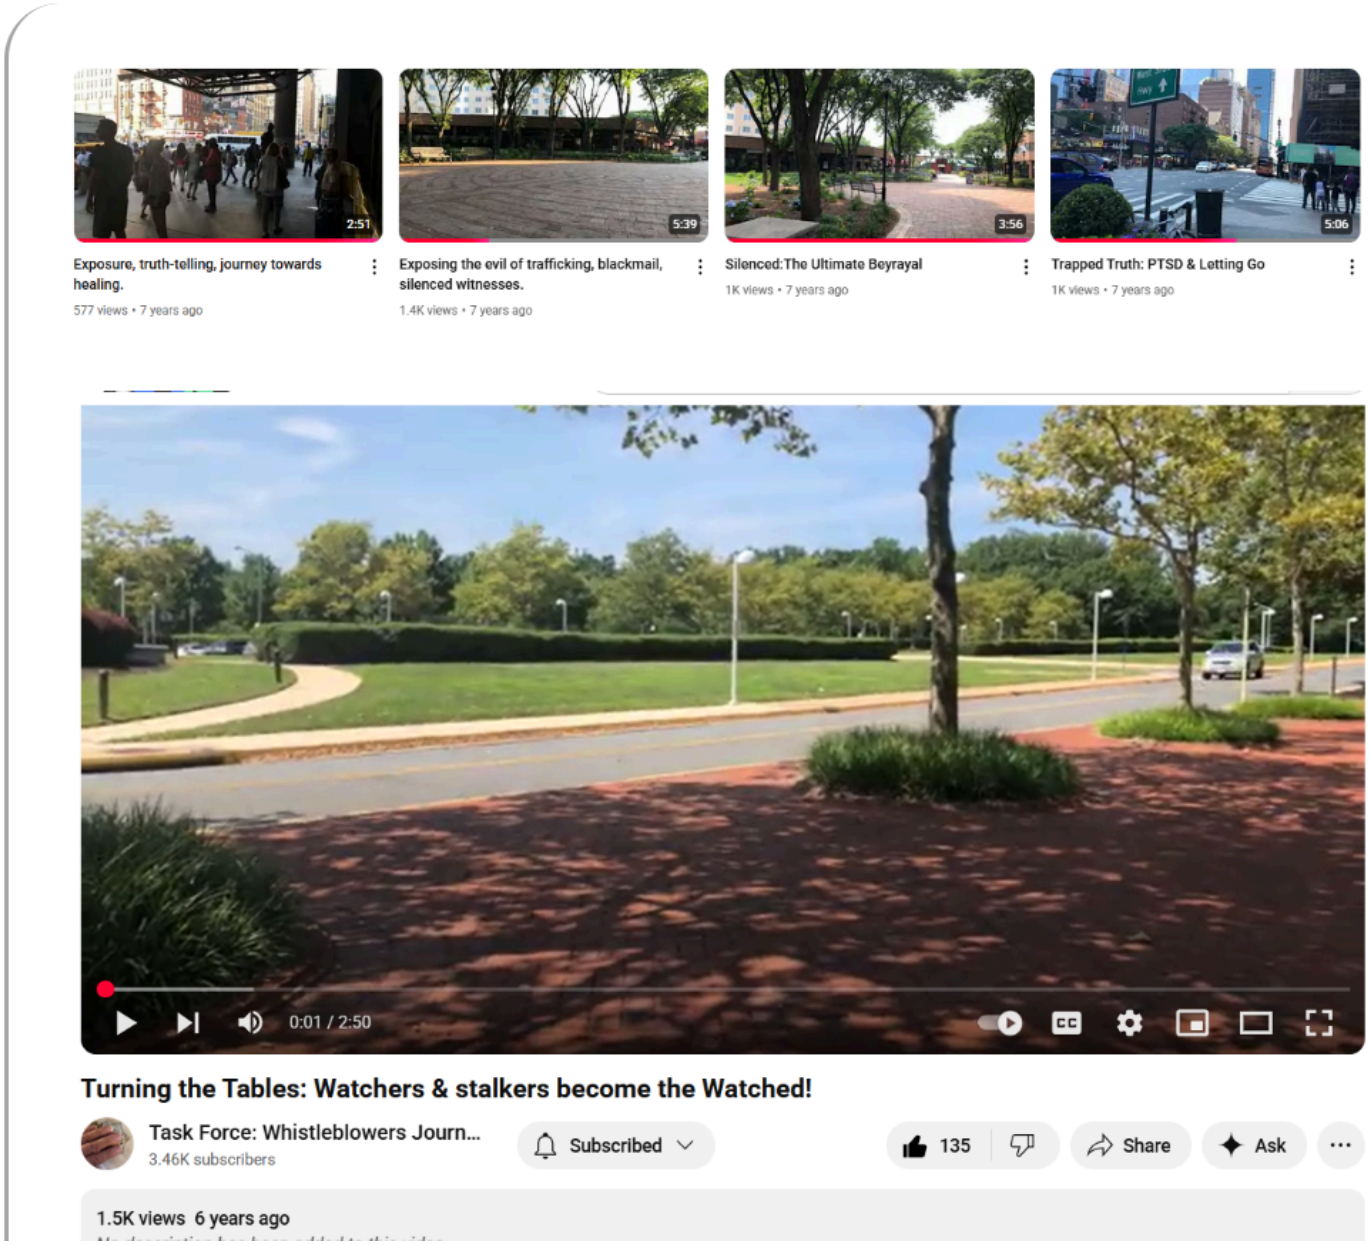
“

- ➜ **Lived in the USA under a hidden identity and European disease:** FOXP2 gene and minimal brain dysfuction were common in Europe and in the Franz Kutshera line including neice Maria

Kutchera. There is also Central Europen gentic component in who are now calle Windsors. An affair between Edward of Wales and Maria Kutchera passed the gene on to hiddend identity children born in the USA and sperated at birth. It mirrrors what in ficiton is Luke and Lea but here Monroe and my mother.

- ➞ **McMartin and Franklin:** Bastard children of european aristocracy and the disease itself are not that rare. In these schools the elites watched and tested their relaties via a CIA program and even selected a few very young by remarigags of parents or as older youths to be part of CIA connected activities.
- ➞ **Jen Moore and Ed Donegan this led to JFK assasination:** Slectively anihilating some leaders and have a US backed leader in the area long being cultivated and pro-western made sense, sense for Indonesia, perhaps Haiti, and other locations.
- ➞ **Hidden Identities are now a DNA issue:** That some people have DNA that is clearly from one family is now being "sold" as voluntary, and in a racketeering scheme "Family Grow Fund" of Glorian Donegan requires DNA to be paid to false victims, victims will to make dipsaraging and destructive claims against Ed Donegan. The ARC of Nova and religous groups who are "saved by Jesus" think these DNA lines belong to God and not to athiests. Religous groups and organizations run Texas in nearly all areas of life.
- ➞ **Jessica Aber and Secret SErvice:** Jen Moore asserted the COIONTELPRO progam was run by Podesta, Jessica Aberm, and others, and was politically gaining by attacks on me and my life. I assert my brother intended that with a life long pro gay hatred of me.
- ➞ **Death of Jessica Aber:** As Ed Donegan continued from 2018 untill now to show the Washginton D.C., and Arlington, VA area corruptoin that kille Jen Moore Jessica Aber dies and I have heart irregularity. Another person from the homeless comunity dies haveing worked at Violet Keepsafe. Ed Donegan asserst the connectoin and asks for cooperation, not being framed in the same ongoing operation.
- ➞ **Change to DVD Arhive:** Zip files of the Press kit were hard to work with and not denting the fraud scheme and I was afraid the Jen Moore allegations woulkd be lost. By Decemeber 2025 working in 20 hour a day rush work I had a good basic archive of 8 gig or so and on 1/25/2006 began the mailings that assert the Jessica Aber death and Jen Moore death is ALSO historically rooted in why they are harrassing my Holt biograpy the Cowboys of Grace Ranch and the Donegan's an Holt in Los Angeles and at Grace Ranch.
- ➞ **Feb 1, 2026:** A week after I began mailing this arhive with compelling cover letters the widow fo a mining engineer from Tuscon, AZ goes missing when her house was entered. Did she have information on Grace Ranch and the Indonesia overthrow I and COl Prouty have been wriing about? This this go back to Judge Roll and asset siesure, 2011 OR Extortion17 and use of siezed assets? THe pattern her is mind boggling.

”



The books by Edward Paul Donegan the Big Bamboozle II especially used here in the archive as LA Bound show the cover-ups and this is included. But the Archivbe most heavily features Jen Moore who corrobrate the racketeering and frame-ups, evidencve plants, and racketeering and murders now a part of covert operatioins under the guise of police servivces or community protection such as Neigborhood Watch.

This book (Big Bamboozle II of which LA Bound) does not focus too much on criminal activity in police, fire, and EMS operations because so many other books do that so well. This Cold War archive show the calculated lies in these type of campaign is targeting yet another JKF witness, just as Colby, Gunderson, Jen Moore and others have been targeted with caculated smears, poisongs, and attacks, etv., to try and destroy our lives and silence us.
